

GENETIC ENGINEERING AND SOCIETY COLLOQUIUM

Fall 2023 Speaker Series

NC STATE

08.22

Welcome Back Lunch

Catch up with what everyone's been up to!

1911 Bldg, Rm 129

08.29

Moore's Law, Genetic Engineering and Historical Analogies

Ross Bassett, Professor of History at NC State

1911 Bldg, Rm 129

09.05

Exploring Policy and Regulation of Emerging Biotechnologies For Use In Controlling Pest Populations

Amanda Pierce, Senior Advisor at US
Environmental Protection Agency (EPA)

1911 Bldg, Rm 129

09.12

AI For Genetics

Daniel Uribe, Co-Founder & CEO at GenoBank.io

[Zoom](#)

09.19

Wellness Day

NO COLLOQUIUM

09.26

Does High School Genetics Education Teach an Essentialist Construal of Gender?

Brian Donovan, Senior Research Scientist at BSCS
Science Learning

1911 Bldg, Rm 129

10.03

CRISPR/Cas-9-Based Gene Drive To Suppress Agricultural Pests

Amarish Yadav, Postdoctoral Fellow (Max Scott
Lab) at NC State

1911 Bldg, Rm 129

10.10

Fall Break

NO COLLOQUIUM

10.17

From Label to Table: Regulating Food In America In The Information Age

Xaq Frohlich, Associate Professor of History at
Auburn University

1911 Bldg, Rm 129

10.24

PreMiEr ERC Societal, Ethical and Policy Implications of Microbiome Engineering

Jennifer Kuzma, Co-director of the GES and
PreMiEr Centers at NC State

1911 Bldg, Rm 129

10.31

Science and Innovation For Conservation

Carolina Torres Trueba, International Legal &
Admin Manager at Island Conservation

1911 Bldg, Rm 129

11.07

Topic Pending

TBD

Confirmation Pending

11.14

Influencing USDA Policies Through the Public Comment Process

Andrew Pugliese, Acting Dir./Deputy Dir. of Policy
Analysis Staff at USDA Office for Food Safety

1911 Bldg, Rm 129

11.21

Thanksgiving Break

NO COLLOQUIUM

11.28

Indigenous Governance of GE Technologies

Riley Taitingfong, Postdoctoral Researcher at
Native Nations Institute, University of Arizona
