

Spring 2024 Speaker Series

Genetic Engineering & Society Colloquium

1/9/2024

Welcome Back Lunch

Catch up with what everyone's been up to!

1/16/2024

Public Engagement: Missing the Mark?

Katie Barnhill, GES Center, NC State

1/23/2024

Using Agbiotech To Cool the Climate by Removing Gigatons Of Methane: a Start-Up Story

Eli Hornstein, Elysia Creative Biology

1/30/2024

From Plants to People: Mendelian Eugenics in NC in the 20th Century

Grace Wiedrich, NC State University

2/6/2024

Ecological and evolutionary perspectives on genetic engineering

David Andow, NC State University

2/13/2024

NO COLLOQUIUM – Wellness Day

UPDATED: 1/31/24

2/20/2024

Indigenous Perspectives on Synthetic Biology for Conservation

Kirsty Wissing, Australian National Univ.

* ZOOM ONLY

2/27/2024

Local Seeds, Global Needs, & the History of Agrobiodiversity Conservation

Helen Anne Curry, Georgia Tech

3/5/2024

Transgenic Mosquitoes in Brazil

Luisa Reis-Castro, University of Southern California

* ZOOM ONLY

3/12/2024

NO COLLOQUIUM – Spring Break

3/19/2024

The USDA's Role in Regulating Biotechnologies

Jen Rowland, USDA

* ZOOM ONLY

Tuesdays @ 12–1 PM | 1911 Building, Room 129 & Zoom
More at: [GO.NCSU.EDU/GES-COLLOQUIUM](https://go.ncsu.edu/ges-colloquium) | @GESCenterNC

3/26/2024

Gender, Eugenics, and the Welfare State in North Carolina

Anna Krome-Lukens, UNC-Chapel Hill

4/2/2024

Genetics' Role in Eugenics and GMO Perspectives

Steve Heine, University of British Columbia

* ZOOM ONLY

4/9/2024

AquaBounty Salmon

Eric Hallerman, AquaBounty

4/16/2024

NSF Cell Studies: Implications for Society and Governance

Barbara Herr Harthorn, University of California, Santa Barbara

* ZOOM ONLY

4/23/2024

AgBioFEWS Group Project Report

AgBioFEWS Cohort 3, NC State University
